EXPERIENCE

Full Stack Web Developer Intern — Art of Living International centre Dec 2025 – Jan 2026
On-site Internship , Bengaluru (currently working)

- Developed an authentication and authorization platform with role-based user access control.
- Built full-stack features using Next.js and TypeScript, focusing on scalability and maintainability.
- Implemented secure authentication using JSON Web Tokens (JWT), cookies, and session management.
- Designed protected routes and middleware to enforce user-based access restrictions.

Open Source Contributor Nov 2025 – Present

- Contributed to open-source projects by fixing UI and functionality issues.
- Submitted merge requests and participated in code reviews via GitLab and Phabricator.
- Sample Merge Request: GitLab Merge Request

PROJECTS

AuthApp **Link — Backend**
React, Node.js, Express.js, MongoDB, JWT

- Developed a full-stack authentication system supporting secure user registration and login.
- Designed RESTful authentication APIs using Node.js and Express following a controller–route architecture.
- Built a React frontend leveraging Context API for global authentication state management.
- Implemented JWT-based authentication with protected routes to ensure secure access control.

CinePlex **Live — GitHub**
React, JavaScript, REST APIs, Axios, Tailwind CSS

- Built a React frontend that fetches and displays movie data via REST APIs.
- Integrated Axios for asynchronous API calls with loading and error handling.
- Developed a responsive UI using Tailwind CSS and reusable React components.
- Improved UI performance by managing state efficiently during user interactions.
